

JESSE ELDRIDGE

Cookeville, TN (Remote) jobs@itsjesse.dev itsjesse.dev github.com/itsjessedev

SUMMARY

Full-stack developer specializing in business automation, system integration, and AI/ML applications. I build custom solutions that connect disparate systems, automate repetitive workflows, and leverage machine learning for intelligent data processing. Portfolio includes 15 production-ready projects spanning API integration, native mobile development, and AI-powered document intelligence.

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, SQL, Dart	Frameworks: FastAPI, React, Next.js, React Native, Flutter
AI/ML: OpenAI, Gemini, ChromaDB, RAG, scikit-learn, TF-IDF, OCR	APIs: Salesforce, Shopify, Amazon, eBay, HubSpot, Jira, Slack
Data: PostgreSQL, SQLite, Pandas, REST, OAuth 2.0, Webhooks	Tools: Git, Docker, Linux, CI/CD, Expo

FEATURED PROJECTS

OrderHub Multi-platform e-commerce aggregator for Shopify, Amazon, eBay, Etsy 70% faster order processing, eliminated overselling React, FastAPI, Shopify API, Amazon SP-API, PostgreSQL	<i>Integration</i>	SyncFlow Automated data pipeline between Salesforce, Jira, and Google Sheets Saved 6 hours/week, eliminated data entry errors Python, Salesforce API, Jira API, Google Sheets API	<i>Automation</i>
InvoiceBot Receipt OCR with AI categorization and QuickBooks integration 98% extraction accuracy, 2 hours to 5 minutes Python, Google Cloud Vision, OpenAI, QuickBooks API	<i>AI/Automation</i>	DocuMind RAG-powered document intelligence with semantic search and Q&A Natural language queries, source-attributed answers Python, FastAPI, Sentence Transformers, ChromaDB	<i>AI/ML</i>
LeadScore ML-based lead prioritization from CRM and email engagement 23% increase in close rate, 1-hour response time Python, HubSpot API, Slack API, Machine Learning	<i>ML/Dashboard</i>	FieldOps Field service app with GPS, task management, photo documentation Offline-first, real-time sync across iOS/Android React Native, TypeScript, Expo, AsyncStorage	<i>Mobile</i>
SmartClassify Multi-task text classification with category detection and sentiment 7-category classification, batch processing	<i>AI/ML</i>	DealScout AI-powered deal discovery with eBay price lookups and flip tracking Instant profit calculations, push alerts for hot deals	<i>Mobile/AI</i>

Python, FastAPI, scikit-learn, TF-IDF

React Native, FastAPI, Gemini AI, eBay API, Gmail API, Firebase

+ 7 more projects at itsjesse.dev: StockAlert, ReportGen, FeedbackPulse, BookingSync, WorkflowBot, DataBridge, itsjesse.dev

Mobile

EDUCATION

Western Governors University

Expected 2025

Bachelor of Science, Computer Science

WORK EXPERIENCE

- Spark Driver

July 2024 - Present

Delivery Driver (Remote/Self-directed)

 - Self-directed gig work requiring route optimization, time management, and customer service
 - Maintained high ratings through reliable, deadline-driven delivery
- Amazon - MQY1

January 2023 - July 2024

Fulfillment Center Associate

 - Met productivity quotas in high-volume fulfillment environment
 - Demonstrated reliability and attention to detail in fast-paced operations
- Eldridge Signing

January 2022 - December 2022

Loan Signing Agent (Self-employed)

 - Self-employed notary handling legal document signings and client scheduling
